

## GOODS AND PASSENGERS CARRIED BY THE RAILWAY TRANSPORT IN JUNE 2009

Goods carried by the railway transport in June 2009 were 1 026.5 thousand tons or by 4.9% more in comparison with the previous month, which is due mainly to the increased volume of the national carriages, while the performance in tonekilometers decreased respectively by 6.6% to 240.9 millions tkms as a result of the reduced average transported distance both in inland and international transport.

Compared to the same month of the previous year the goods carried in June 2009 decreased by 40.3%, while the performance - by 43.9% (respectively by 691.8 thousand tons and by 188.3 millions tkms). The biggest decline is in the national carriages , where the goods carried and the performance decrease respectively by 488.5 thousand tons and by 126.6 millions tkm.

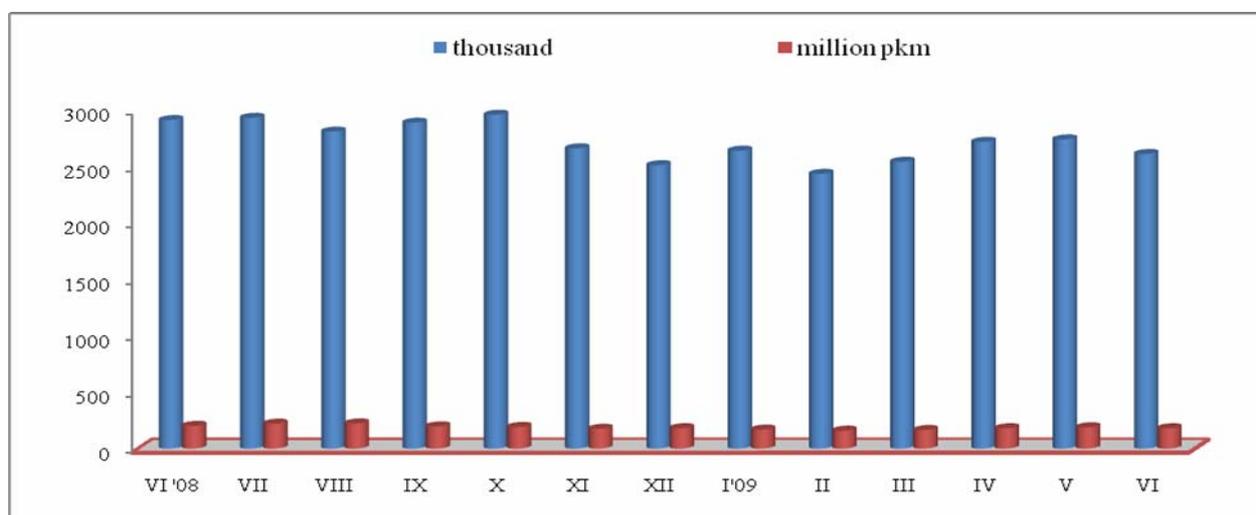

### GOODS CARRIED AND THE PERFORMANCE BY THE RAILWAY TRANSPORT

In June 2009 were carried 2 613.3 thousand passengers or by 4.7% less as compared to the previous month, while the performance fell by 4.5% to 180.6 millions pkm.

As compared to June 2008 , the passengers carried by the railway transport in June 2009 were by 10.3% less, while the performance in passengerkilometers decreased by 10.8% as a result of the reduced average distance travelled in the international carriages.
