

## ACTIVITY AND CONDITION OF ACCOMMODATION ESTABLISHMENTS<sup>1</sup> DURING THE STATE OF EMERGENCY IN DECEMBER 2021

The National Statistical Institute conducts monthly short survey among the managers of accommodation establishments to gather accurate and timely information on the state and development of their businesses during the ensuing epidemic situation in the country.

In December 2021, 52.0% of the respondents offered their clients an alternative period to use their reservations, 51.6% had intended to reduce the price of the package services, and 35.5% - price of the nights spent.

**Figure 1. Price reduction of night spent or package services by months**

With regard to the employees, 23.9% of the managers took as a measure 'paid leave', 14.0% - 'unpaid leave' and 8.2% - 'part-time work'. 8.0% of the managers benefited from 'release/reduction', 3.1% took the measure 'reduction of staff remuneration', and 2.1% - 'remote form of work'. At the same time, 16.8% of the accommodation establishments have benefited from the government measures to support employers (Figure 2).

### **Methodological notes**

In the period from 7 to 25 January, the National Statistical Institute has conducted a short business survey of Accommodation Establishments. The purpose of the study is to provide to the society information of the impact in state of emergency and the ensuing epidemic situation related to COVID-19 on the most affected sectors of the economy in the country.

In the survey of accommodation establishments are included 1 806 categorized hotels, campsites and other short-term accommodation (villas and tourist settlements, hostels, guest houses, bungalows, holiday homes, chalets, private lodgings and apartments and other short-term accommodation establishments) with more than 10 beds functioned during December 2021. The participation in the survey is voluntary.
