Methodological notes

In the period from 4 to 24 February, the National Statistical Institute has conducted a short business survey of Accommodation Establishments. The purpose of the study is to provide to the society information of the impact in state of emergency and the ensuing epidemic situation related to COVID-19 on the most affected sectors of the economy in the country.

In the survey of accommodation establishments are included 1 702 categorized hotels, campsites and other short-term accommodation (villas and tourist settlements, hostels, guest houses, bungalows, holiday homes, chalets, private lodgings and apartments and other short-term accommodation establishments) with more than 10 beds functioned during January 2022. The participation in the survey is voluntary.
