

ACTIVITY AND CONDITION OF ACCOMMODATION ESTABLISHMENTS¹ DURING THE STATE OF EMERGENCY IN FEBRUARY 2022

The National Statistical Institute conducts a short monthly survey among the managers of accommodation establishments to gather accurate and timely information on the state and development of their businesses during the ensuing epidemic situation in the country.

In February 2022, 50.4% of the respondents offered their clients an alternative period to use their reservations, 48.4% had intended to reduce the price of the package services, and 30.3% - price of the night spent.

Figure 1. Price reduction of night spent or package services by months

With regard to the employees, 17.0% of the managers took as a measure 'paid leave', 12.8% - 'unpaid leave', and 8.3% - 'release/reduction'. 4.6% of the managers benefited from 'part-time work', 2.0% took the measure 'reduction of staff remuneration', and 0.9% - 'remote form of work'. At the same time, 13.5% of the accommodation establishments have benefited from the government measures to support employers (Figure 2).

Methodological notes

In the period from 4 to 24 March, the National Statistical Institute has conducted a short business survey of Accommodation Establishments. The purpose of the study is to provide to the society information of the impact in state of emergency and the ensuing epidemic situation related to COVID-19 on the most affected sectors of the economy in the country.

In the survey of accommodation establishments are included 1 675 categorized hotels, campsites and other short-term accommodation (villas and tourist settlements, hostels, guest houses, bungalows, holiday homes, chalets, private lodgings and apartments and other short-term accommodation establishments) with more than 10 beds functioned during February 2022. The participation in the survey is voluntary.
