#### Methodological notes

The quarterly business demography of registrations and bankruptcies of legal (legal) entities is related to certain demographic events - date of establishment of the legal entity, date of declaration in bankruptcy proceedings, date of declaration of bankruptcy and date of declaration of liquidation. The data is presented in absolute values according to selected sections of the Classification of Economic Activities (NACE - 2008)<sup>1</sup>, according to the requirements of Regulation 2019/2152 of the European Parliament and of the Council of November 27, 2019, on European business statistics.

A legal unit is a legal entity under public or private law. This legal entity can be:

- A legal entity whose existence is recognized by law regardless of the persons or institutions that own it or are members;
- A natural person who, as an independent person, exercises economic activity. In order to exist, it must be legally registered with the competent administrative authorities (Commercial Register and Register of Non-Profit Legal Entities, Bulstat Register and others).
