

Thematic **final data census volumes** were published on:

4. **Population - demographic structure** includes information regarding the number and structure of the population by demographic, educational, ethnic and confessional characteristics;

5. **Population - social and economic structure** includes information on the number and structure of active and inactive population by demographic and socio-economic characteristics (sex, age group, professional status, occupation, branch, training level);

6. **Population - ethnic and confessional structure** includes information on the number of population by nationalities, mother tongue and religion, in complex correlation, by some demographic, social and economic characteristics;

7. **Buildings, dwellings, households** includes information regarding the number and the structure of buildings, dwellings and households, as well as the living conditions;

8. **Population, buildings, dwellings**, in English, focusing on population characteristics, households and families, buildings and dwellings at different geographical levels (soon).

All the volumes were produced by the Census staff ready to press process.

In addition, the volumes were published on CD-ROMs, and on internet [www.recensamint.ro](http://www.recensamint.ro) and [www.insse.ro](http://www.insse.ro) for free.

The CD-ROMs were designed and produced in-house by Census staff as well as web site content.

**COSTS** The 2002 Romanian Population Census budget was EUR 26.6 million and was supported by the Government. To carry out the work on the census, the regular budgets for the NSI, Ministry of Public Administration and local councils were increased according with the tasks.

The expense budget was as follows:

- 82.3% for staff expenses direct costs (all enumeration and PES staff, data-entry workers at county level, additional personnel hired at local level, fees, transport, accommodation);

- 15.9% for material expenses (delimitation of enumeration sections, cartographic materials, questionnaire printing and diffusion, advertising, renting locations for training sessions, data transmission, fuel and local expenses);

- 1.8% for capital expenses, i.e. IT equipment.
