4. ENRICHMENT OF SOCIAL STATISTICS BY COMBINING CENSUS, ADMINISTRATIVE AND SURVEY DATA USING DATA LINKAGE

In Hungary administrative data sources are not used in demographic and social statistics insomuch that could be. In 2002 a Committee and Working Groups were set up at the HCSO to deal with the problems of data collections (surveys) in social statistics. The

commission of one of the Working Groups was to study the situation of the use of administrative data sources for statistical purposes.
